FIELD MANUAL v1.0

Welcome to ***EVOLVE and PREVAIL FIELD MANUAL VERSION 1.0***

This will be a reoccurring document, created and distributed upon the accumulation of ample and significant submissions to the the EVOLVE forum database. Being that this is version 1.0 of said document, this is merely a primer, and more of a BETA version...So lets actually restart this process.

Welcome to ***EVOLVE and PREVAIL FIELD MANUAL VERSION 1.0 (BETA)***

Thank you for participating in the EVOLVE AND PREVAIL initiative. Please read the disclaimer below before you get too excited about anything.

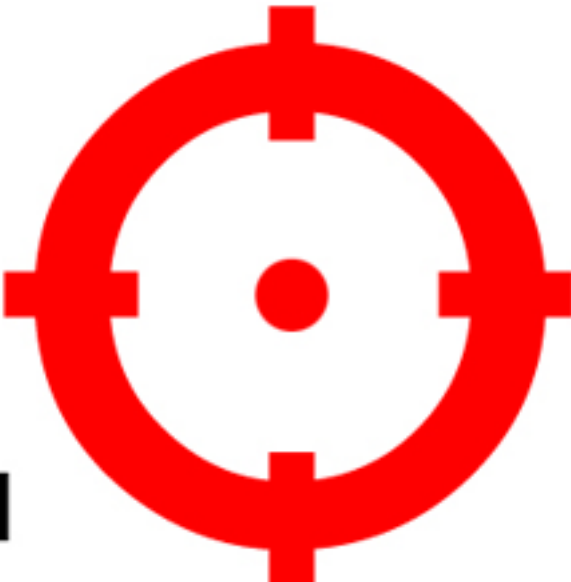

REALLY IMPORTANT DISCLAIMER ABOUT NOTHING AT ALL:

FOR NO REASON SHOULD YOU USE ANY OF THE MATERIAL IN THIS MANUAL FOR PERSONAL RECREATIONAL PURPOSES. THE ARTWORK AND IDEAS PRESENTED IN THIS DOCUMENT ARE MERELY FOR GAWKING. THERE IS NO REASON AS TO WHY YOU SHOULD WANT TO, OH...SAY, PRINT OUT A PARTICULAR LOGO OR PHRASE FROM THIS DOCUMENT AND PLASTER IT ALL OVER THE FACE OF "ANONYMOUS BANK OF SOME COUNTRY'S" SUBWAY TRAIN ADVERTISING CAMPAIGN. THAT WOULD JUST BE DUMB. REALLY DUMB AND UN-INTERESTING. IT'S PROBABLY BEST TO THROW THIS MANUAL AWAY, OR PUT IT IN A CHAIR AND SIT AROUND WITH YOUR FRIENDS DRINKING CORONAS, POINTING AND LAUGHING AT THIS POINTLESS WASTE OF CREATIVE EFFORT. REALLY, THIS IS JUST A COLLECTION OF PRETENTIOUS BANTERING AND NAIVE PERCEPTIONS OF THE STATE OF THE WORLD. THE "ARTWORK" AS IT WERE, COULD HAVE BEEN SHAT OUT BY A SEVEN YEAR OLD SUNDAY SCHOOL STUDENT. IN ANY CASE, WE SPARED NO EXPENSE CREATING THIS OTHERWISE FINE PIECE OF WORK.

PRELIMINARY GLOSSARY v1.0

circa 2065 AD

Hello! I am PRELIMINARY GLOSSARY version 1.0. I am here to make this immersive experience more enjoyable and CLEAR by offering you a helpful preliminary index of terms, concepts, technologies and otherwise, that you will encounter within your dive into the separated dimensions conjured up by your deep, perceptive, cerebral being, initiated by this very textual program module.

I am an annoying beast. I may decide to interrupt your experience every so often if I realize I have forgotten a preliminary entry. Should you wish to skip this process, turn the pages until you reach the entry titled: END OF LINE (go home to your mother), and begin your innerspatial transmogrification immediately. THANK YOU FOR USING PRELIMINARY GLOSSARY version 1.0

engineered by: MG19849695

wireless innerspace analysis system (WIAS)

a nano-technological network of probes and broadcasting nodes sent into the human body to relay information on various bodily systems, via bluetooth, to any bluetooth enabled device (computers, laptops, phones etc.) information can also be mirrored on a server to be accessed anywhere by anyone. once one has accessed the interface one can choose to administer antibiotics, shut down certain probes, start new ones, erase a probe's ID and reload a new protocol, etc etc...

WIAS nodes

nodes are the wireless broadcast stations planted within the body, that collect information and broadcast to bluetooth equipped devices and/or online servers via wireless AP.

probes

probes are modular, mobile shells that interpret protocol programs. a probe without a protocol installed is merely an idle BOT. if unused for more than 60 days, it will self destruct and be absorbed into the body as broken down carbon. probes can be grouped and assigned to a particular system, according to what the protocol allows, giving the user the freedom to control the WIAS activity via wireless interfacing.

protocol (probes)

the protocol is the actual program that runs a probe. certified protocol requires months of testing and debugging before it is released to the general market. 3rd party and black market protocol programming began very shortly after the technology was made available, and has swept the general market into a frenzy of illegal protocol trade.

nanoSYS

nanoSYS is the umbrella corporation formed by various investors of the initial nanotechnology boom. nanoSYS owns and controls all production and distribution of all CERTIFIED nodes, probes, and protocols applied with WIAS technology.

CNA

the certified node alliance is a small faction of nanoSYS that manufactures different kinds of nodes.

pr0t0

pr0t0 is the worlds leading anonymous underground protocol network. they are largely used for their vast array of stimulant pr0t0s. they are looked down upon by the elite upper echelon of illegal pr0t0 programmers for being nothing more than a "supermarket for nano-junkies."

gulliver

gulliver was the first virus to infect the node network. it was created by the first node hackers as a warning to the WIAS community. it did nothing more than shut down all probes for a 30 day period, and take over the wireless interface with a short message: "your body is no longer your body." this inevitably opened the doors for more destructive viruses and new forms of biological warfare.
